

Client Testimonials

Dear Paresh,

All of us here at Nature's Best Photography are so grateful for your attention to the important details of every print you reproduced for 'The Benjamin Mkapa Wildlife Photography Awards Exhibitions'.

As we worked together virtually and face to face in preparation for these spectacular, large-format presentations, I quickly learned I was working alongside an expert in color management and production. Both you and your son, Anokh, are masters and are clearly motivated by the passion you share for African Wildlife and the Photographers who bring us their special moments in the field.

In addition to your fine art print-making skills, your experience and expertise was vital in assisting the exhibition design, manufacturing, installation, and of course, the lighting that finally brought these images to life for museum and gallery viewers.

You are a perfectionist and that dedication shone through within our public displays in Kenya, Tanzania, and Zimbabwe — the total package. I would say, The One Stop Shop for the best results!

I know each and every featured photographer was impressed by the way you reproduced their work and will no doubt be reaching out when they want more prints to be made for their own exhibitions.

Getting to know you personally as well as professionally, I feel as though I have gained a true friend as well as business partner in launching a new photo competition concept that has made a difference in the lives of many on the continent as well as the world. It was an honor to stand by you at exhibition openings and admire the work we had done together and the positive public response that followed.

My very best,
Steve
