

Client Testimonials

Dear Paresh,

We would like to express our utmost thanks to you for the stunning print that we got from you.

From the word go, we were thoroughly impressed with your attention to detail. You really took the time to explain all the details to us to ensure that the picture was correctly formatted, that the colours were calibrated properly and that we actually started to get an understanding of all these aspects.

We love the media that you chose for the print - it really brought out the photo we had taken. Your passion for the art of printing pictures (yes, it is an art to get it to the level that you have) really shines through and we are so happy that we have finally found the person who will do all our future prints.

We know they will be perfect, especially as you do not delegate the work, but do it yourself.
